SUMMARY

Seeking to start a career in software development by applying my academic knowledge and experience in teamwork and leadership. Aiming to contribute through strong problem-solving, communication, and collaboration skills while learning and growing in the tech industry.

EDUCATION

B.Tech Computer Science & Engineering , JECRC University (CGPA: 7.9)	Jaipur, 2022–2026
12th Grade , Lakshmipat Singhanian School (Percentage: 81.4%)	Rajsamand, 2022
10th Grade , Lakshmipat Singhanian School (Percentage: 77.6%)	Rajsamand, 2020

SKILLS

Technical Skills: Java, C, C++, DSA, SQL, NodeJS, NestJS, React, HTML, CSS, Javascript, Typescript, Wordpress

Tools: Git, Github, VS Code, IntelliJ, Bootstrap, Replit, Postman, Swagger, TypeORM

Soft Skills: Leadership and Team work, Communication and Decision making, Time Management, Active Listening

Core Concepts: Object-Oriented Programming (OOP), Data Structures and Algorithms (DSA), DBMS, Operating Systems

EXPERIENCE

Jr. Software Engineer Intern, ZUCOL Solution Jaipur, Jan 2026 – Feb 2026
Worked on a live company project; built REST APIs using NestJS & Node.js, integrated MySQL, implemented authentication, and supported backend development.
Contributed to backend API development for BTHawk, a business & GST billing software platform.

Project Intern, DOIT&C – Bhamashah State Data Centre Jaipur, Mar 2026 – Present
Building the Smart Data Center Monitoring Platform — a full-stack web application that automates ingestion, processing, and visualization of infrastructure metrics from Excel and PowerPoint-based operational reports.

- Engineered file parsing pipelines using SheetJS and pptx2json to convert Excel/PPT data into structured metrics stored in MySQL via TypeORM.
- Developed RESTful APIs in NestJS with JWT-based authentication, role-based access control, and real-time dashboards using React.

PROJECTS

MusicDB: A Music Rating and Review Platform **HTML, CSS, JavaScript, SQL, Java**
A web application inspired by IMDb, designed for music. It allows users to search and rate music albums and artists.

- Features music details, artist bios, user ratings, and search functionality
- Implemented backend database structure using SQL for storing music-related data

Promptaify: AI-Powered Code Generator **HTML, CSS, JavaScript, SpringBoot, SQL, Java, API**
A smart web tool that helps users generate code by typing or speaking prompts.

- Built the backend with Spring Boot to securely connect OpenAI (via OpenRouter API).
- Used APIs to generate real-time AI responses.

DRAG: E-Commerce Platform **React, NestJS, Node.js, TypeScript, TypeORM, SQL**
DRAG Clothing is a full-stack e-commerce web application developed to provide an online platform for browsing and purchasing fashion products. The application includes product catalog management, user authentication, and an interactive shopping experience.

- .SuperAdmin has full platform control; Clients can list products and manage their Managers; Users browse and purchase products.
- Implemented secure JWT-based authentication, role-based access control (RBAC), and RESTful APIs using NestJS and TypeORM on a MySQL database.

CERTIFICATIONS AND PARTICIPATIONS

- Oracle Cloud Infrastructure AI Foundation Associate**
- Software Engineering Job Simulation, Technology Job Simulation**
- Smart India Hackathon'24** – Participated in a national hackathon focused on innovation project development.

EXTRACURRICULAR ACTIVITIES

- Class Representative, B.Tech (CSE) 2022 – Present
- International GK Olympiad – 2nd Position
- International Maths Olympiad – 3rd Position
- NCC Cadet – Have (A* Grade Certificate in NCC) attended the NCC camp Unit 10 RAJ Battalion, Udaipur.
